BIOBOX
EasyBox Filtration System

The best combination of EasyBox recharges, can provide the following features of aquarium filtration system:

- Ensures crystal clear water
- Captures residues in the water
- Eliminates micro algae and residue of medication
- Captures the smallest pollutant particles and promotes an intense biological decomposition of the pollutants
- Provides optimal conditions to obtain a high bacteria colonisation which is essential to the equilibrium of your aquarium and well-being of your fishes and plants

T5/T8
LIGHTING SYSTEM

FITTING HARDWARE

COMPATIBLE WITH

NEW GENERATION LED SYSTEM

The new EASY LED range was designed to adjust easily to any freshwater tank. Available in 7 different sizes, the light units can be fixed to the existing T5 and T8 lamp holders as simply as they can be suspended or placed on the top of different sized tanks. Provided with an angle beam of 120 degrees and a high power light, they ensure an higher light-output than any regular T5 or T8 light unit.

REFLECTORS FOR FLUORESCENT TUBES

- High-gloss surface for maximum light reflection performance;
- Provides more light in aquariums and terrariums;
- Thick robust aluminium construction for longer longevity and durability;
- Corrosion-resistant;
- Long-lasting fixation clips and easy to mount;
- Optimum clip holder for easy replacement;
- Edge/corner protector against injury;
- Adjustable reflector for optimized light orientation;
- Suitable for all current T5/T8 tubes.

UNIVERSAL T5/T8
